WITHDRAWAL NOTICE

Emergent Geometry from Self-Referential Quantum-Information Networks: A Linear, Local, and Experimentally Testable Framework

This 305-page compilation contains a placeholder author and asserts five-qubit experimental verification without identifying a supporting result. Its emergence claim is withdrawn. The scoped locality theorem and spin-2 null search have separate records.

Manuscript · p. 1, author and opening claims

SRQID locality bound

Evidence · QATNU/SRQID dated scientific review
