DATED HISTORY

2008 physics notebook - Miss Ball And Chain

A 2008 notebook sketch preserved as a source for the early research chronology.

Manuscript · Scanned notebook

Ph.D. Time (2008) Physics Transcriptions

Evidence · Live publication library

4/08

Miss ball and chain
like a cat and string
each time's a brand new game
you play it all the time

relative
high densities of mass
~~occurring naturally or by very tremendous speeds~~ can
warp time by protruding
into the 4th dimension
and gravity seeps in to
fill the gap.

time is just what clocks measure."
- Einstein

To mass and velocity in other 3 dimen
