WITHDRAWAL NOTICE

Native Many-Body Shared-Register Benchmark for Curvature-Filtered SU(2)-Singlet and Tensor Protection

The adversarial audit reproduced the reported numbers and traced the large-size power laws to momentum factors inserted into a four-dimensional ansatz before diagonalization. The many-body interpretation is withdrawn. The adversarial audit is the primary record.

Manuscript · p. 1, abstract

Adversarial Audit of the Native Many-Body Shared-Register Benchmark

Evidence · Adversarial audit of the shared register
